

## **Some Endorsements for LEA, Inc. “SHARC™” “Multi-Ripper Products”**

**Endorsement:**

Recieved "Triple Threat" Ripper and easily attached to my JD310D Hoe....  
Works great as promised  
Thanks !  
Charlie Bess of Keyser, WV

**Endorsement:**

“It works great! We were surprised! It almost cut our dig time in half!”  
Randy, Snyder Excavating, Madisonburg, OH

**Endorsement:**

“This is the most incredible tool that I have ever purchased! I am so impressed! It takes a lot to impress me, but this tool is fantastic!”  
Pat White, Pat White Construction, Elburn, IL

**Endorsement:**

"It works better on frost than anything that I have seen!"  
Ed Csenge, Keene, NH

**Endorsement:**

“Rips rock like crazy!”  
“We are delighted with the ripping aspect of it”... “you have to come down and see it to believe it” “after one tooth breaks out a chunk, the other teeth hit like hammers... the pieces fly out about 4” ....we can do it a lot faster with this”  
Bob Longo of Longo De Puerto Rico

**Endorsement:**

Subject: RE: 420D and Multi-Ripper attachment SAVE THE DAY!  
“Excellent combination, simply excellent! This pin-grabber and multi-ripper will be a nice little profit center in fractured rock. The ripper took it out with ease! Well done gentlemen! Thank you...”  
Robert H. Thiele, RT Construction, Roanoke, Texas

**Endorsement:**

“I am very pleased with your new ripper! I like it! ... It Kicks butt! ...There is nothing else like it! I like the cost effectiveness of it! ... It is well built! The short throw gives you more power! You also don't have to look through a bucket! ...”

Mark Sutphen, D&E Excavating, Fountain Hills, AZ

**Endorsement:**

“This is to let you know that we received the bucket on the site last Friday, installed it on our excavator and gave it a try right away with excellent results. I approached the operator and he told me that this is the best attachment I have ever bought!”

Fernando Sosa, Panama

**Endorsement:**

“It works awesome! The solid sandstone mass on either side of the roadway is kind of odd for our region. It's hard stuff! There are no seams in it. It is not fragmented at all! We can't blast because we are too close to the road and utilities. The only alternative would have been to use a hoe-ram. Using a hoe ram would have been only 50% as fast as the Multi-Ripper. Now we can work a lot faster, maybe even more than that! Not only that, we have eliminated the need to have another machine and operator working because otherwise we would have to break it out with the hoe-ram mounted on one excavator and then clean up with a bucket on another machine. With the Multi-Ripper we can rip up the sandstone, and with our quick coupler, change back to a bucket for clean up, all with one machine and operator! On this project we have been using the Multi-Ripper everyday for the waterline, storm drainage and sanitary installations. I only wish that we wouldn't have waited so long to give it a try. I have one comment to give to others....don't wait... it's the real deal!”

Jerry Bailey, Project Manager, A.P. O'Horo Youngstown, Ohio

(Working on a \$7.2 million dollar highway widening and interchange project for the Ohio Department of Transportation)

**Endorsement:**

“It is a Godsend to me, a real blessing! ...I really like it! ....It peels through the caliche like butter! .....I can do two houses in one day instead of one house by using a hammer! ...and it costs a lot less to use this tool!..I can see through the teeth, I can dig around utilities! .....It also really saves on wear

and tear of the machine! This tool is less abusive on the machine than a rock bucket or a hammer. ..There is a big difference!

Scott Lambdin, Bulldog Excavating Co., Phoenix, AZ

**Endorsement:**

“...the Multi-Ripper has helped my business a lot!”

Russ Witt, Witt Construction, Heber, Utah

**Endorsement:**

“It is the most productive tool that I’ve seen in the 14 years that I have been doing this!” “It’s amazing!” “It’s Excellent!” “It is 3 to 4 times faster than a hammer. You can flip the ripped stuff out and sake piles and then come back later to clean up. With a hammer, you have to keep stopping to clear out the debris. This operation is much faster. I can make decent money with this! It will pay for itself in just a couple days! With a ripper bucket you can’t see what you are doing, it winds up going off to the side, you can’t concentrate on one spot, and there is no comparison. I charge \$250 per hour for this tool on my 320 and \$300 for a hammer yet is it 3 to 4 times faster. We did a 20’ by 50’ by 2 ft deep trench of decomposed granite and it only took 45 minutes, and that includes cleaning up! We were completely done! It would have easily taken 4 hours to do that with a hammer.”

Rusty Ludwig, R.S Excavating, Phoenix AZ

**Endorsement:**

“I will nominate the Multi-Ripper as “Tool of the Year!” The Multi-Ripper works great!” “It will rip fractured rock, white caliche. It works well. ... it is 4 times faster than a hammer because you can rip and keep moving ....the hammer only goes at one speed, tink-tink-tink, with the Multi-Ripper, you can rip much faster, plus move the stuff away to expose virgin rock. ... .. and the contractor is guaranteeing that he will get more jobs from the builder. He says that “it takes it out like butter!”

Jason Sutphen, Tom Nichols Excavating, Phoenix Arizona

**Endorsement:**

“I bought a multi-ripper from you this summer for my Cat' 307 with a Wain-Roy swinger. I've now used it on stumps, frost and ledge. Your product is absolutely great! It really adds functionality to my machine allowing me to work in adverse conditions when a bucket just doesn't cut it. I look forward

to using it whenever I can. It's a product that I'll recommend to anyone who asks.”

“Thanks for a great attachment!”

Christian L. Buehner, Landshapers, Inc., Damariscotta, ME

**Endorsement:**

“...he is so happy with your bucket!..it is chewing it up so fast! Thank you so much!..”

Dennis and Grayce Keller, Central Wyoming Services, Moneta, WY

**Endorsement:**

“The Multi-Ripper is just terrific! We were skeptical at first, but when we saw it work, we were amazed! This blue shale is hard stuff and we have been getting great results! It is the absolutely the best attachment that we have ever seen!”

Darren Garcia, Otero County Road & Bridge, Swink, CO

**Endorsement:**

“that Multi-Ripper slicker than hell! It is the best thing that I ever spent money on!” “The other day in 8 hours I ripped a trench 400ft long, 13 ft wide with 5 foot deep of solid hard rocky/sandy frost. It is amazing!”

Dennis Krause, Advance Concrete & Excavating, Spencer, WI

**Endorsement:**

“That Multi-Ripper Bucket is a Savior!.. It saved my machine and it saved production!.. It is just like the brochure says, it is the best attachments that I ever bought!”

Dennis Keller, Central Wyoming Services, Moneta, WY

**Endorsement:**

“We are very impressed with the ability of the Multi-Ripper to break stuff up! It is sure doing a number on that mountain!”

Tom Smith, Wadsworth Brothers Construction, Draper, UT

**Endorsement:**

“We are very happy with the Multi-Ripper...it works awesome! We had a subdivision that was all rock and we didn't have to use the hoe-ram. It works perfect!”

Jason McDermott, McDermott Excavating, Dubuque, IA

**Endorsement:**

“the Multi-Ripper on my John Deere backhoe is ripping the DG really well and my big 60 thousand pound Hitachi with a Wain-Roy Ripper Bucket is not ripping it at all. How fast can I get a Multi-Ripper for my big machine?”  
Larry Craig, Craig Construction, Lincoln, CA

**Endorsement:**

“That Multi-Ripper is doing an awesome job!” “so far, it has ripped all of the rock that we have come across, .... and it is working real good!  
Butch Smith Jr. of Hidden Mountain Construction, Sevierville, TN

**Endorsement:**

“It is great! My Multi-Ripper rips right through the solid rock! It is faster than I could do it with a hammer!”  
Ron Biermann of R&D Construction, Sedona, AZ

**Endorsement:**

“That Multi-Ripper definitely saved me money on my 10 acre stump job! I was able to do the job about 30% faster and with one less machine! ....It saved me money!”  
Kelly of KCC Kelly Construction, Forest Hill, MD

**Endorsement:**

“We are very happy with the performance of the Multi-Ripper Bucket!... Now, with the use of the Multi-Ripper Bucket, we are able to do the same operation with only one machine, while being easier on the machine and operator, and with a better rock yield. I think that the bucket is great for our operation..”  
Troy Adzima, Lakeland Sand & Gravel, Inc., Greenville, PA

**Endorsement:**

“I must admit when I first saw the attachment when it was shipped here, I had bad thoughts wondering if it was worth the money. Now I must say, this attachment has my utmost respect and we plan on purchasing more of these units and having one for each of our machines.”  
Thomas Campbell, Kane County Construction Services, Montgomery, IL

**Endorsement:**

“Our Multi-Ripper Bucket works great! It rips through the rock easily! We can now lay four sticks of pipe in the time that it used to take us to do one!”  
Kevin Muffett, Muffett & Sons Construction, LLC, Union Gap, WA

**Endorsement:**

“I am ordering another one today. That Hi-Cap Multi-Ripper Bucket is the best thing that I ever bought! It saved me last year! I wish that I had three of them”

Wade Bail of Wade Works, LLC, Buffalo, SD

**Endorsement:**

“Those Multi-Ripper Teeth really rip great! They outperform the standard twin tigers two-to-one! A big difference!”

Rod Blake of Blake Construction, Barling, AR

**Endorsement:**

"Lee has brought a whole new dimension to rock excavation. As a utility and excavation contractor I have purchased several large Multi-Ripper Buckets from Lee and Leading Edge Attachments. I have been amazed at the productivity that we have achieved with these buckets. They named the company correctly, because they are on the LEADING EDGE. In my 38 years working in the construction industry I believe the Multi-Ripper Buckets are the greatest advance I have seen for excavating rock.

Lee Horton has always done whatever it takes to satisfy me as the customer. I am very proud to be associated with such a fine organization."

Ronnie Lewis, President of Lewis Construction, Georgetown, TX
